OUR OBJECTIVE

Royal Asia Services Pte Ltd (RA Energy Group) maintains a comprehensive pool of experienced, qualified manpower across Singapore, Indonesia, Malaysia, and internationally, encompassing QA/QC, structural, piping, electrical & instrumentation, and administrative disciplines. Our workforce has been developed through sustained deployment on major offshore, marine, and oil & gas projects—including FPSO new-build construction, topside module fabrication, shipyard repair, LNG expansion, and pipeline construction—in partnership with leading EPC contractors, operators, and shipyards worldwide.

This portfolio represents our current workforce capability: verified project histories, professional certifications, and residency status for each candidate, enabling efficient shortlisting and rapid mobilization once a requirement has been identified.

It is our objective, in presenting this catalogue, to position Royal Asia Services Pte Ltd (RA Energy Group) as a trusted and reliable manpower supply partner for organizations undertaking offshore, marine, and industrial projects on a global scale. We are committed to providing qualified, deployment-ready personnel capable of meeting rigorous project schedules, technical standards, and safety requirements from the outset of engagement. We welcome the opportunity to discuss how our workforce capabilities may support your current and forthcoming project requirements.

MOHAMMAD SAZID

BOE CERTIFIED POWER PLANT OPERATIONAL EXPERT

JOB POSITION: BOE Certified Power Plant Operational Expert | Resident Status: As per source CV / available on request

CAREER OBJECTIVE

Experienced BOE Certified Power Plant Operational Expert seeking to contribute proven capability in commissioning, mechanical, HSE, boiler operations to offshore, oil & gas, marine and industrial projects, with strong focus on safe execution, quality compliance, reliable field coordination and timely project delivery.

PROJECT / PROFESSIONAL EXPERIENCE

- Operational Energy Group India Limited (OEG India) April 2026 – Present
- Shift Incharge – WHRB (Location: Vedanta Ltd. - SESA GOA, 35 MW + 30 MW Plant)
- Heading 24/7 shift operations for the 35 MW and 30 MW Power Plants integrated with Vedanta's Pig Iron
- Division.
- Successfully operating and monitoring 2x65 TPH and 2x64 TPH Waste Heat Recovery Boilers (WHRB)
- via Invensys Foxboro DCS system.
- Coordinating seamlessly with process division managers for uninterrupted steam and power supply,
- ensuring high thermal efficiency.
- Ensuring 100% adherence to unsafe-act reporting, tool-box talks, and strict safety guidelines during shift
- execution.
- ACC Limited (Adani Group) January 2018 – April 2026
- Shift Engineer (O&M)

EDUCATION & CERTIFICATIONS

- Diploma in Mechanical Engineering – Monad University.
- English Proficiency: Currently preparing for international professional communication certifications (PTE/
- IELTS).

ABHIJIT SAIKIA

CHEMICAL ENGINEER

JOB POSITION: Chemical Engineer | Resident Status: As per source CV / available on request

CAREER OBJECTIVE

Experienced Chemical Engineer seeking to contribute proven capability in HSE to offshore, oil & gas, marine and industrial pr ojects, with strong focus on safe execution, quality compliance, reliable field coordination and timely project delivery.

PROJECT / PROFESSIONAL EXPERIENCE

• Udipta Energy & Equipment Pvt Ltd. - Kharsang, Arunachal Pradesh
• Roustabout
• Contributed to drilling operations on a 1000 HP rig equipped with a Top Drive System, supporting the successful completion of 5 wells.
• Carried out rig-man duties across 2 of 5 wells during work over operations, coordinating fluid-system readiness and equipment
• maintenance to keep operations on schedule.
• Executed rig-up and rig-down procedures, coordinating material handling to sustain continuous drilling operations.
• Maintained drilling fluid quality and consistency by monitoring tank operations and fluid storage, applying core chemical engineering.
• principles.
• Managed mud chemicals and drilling fluid system operations in strict compliance with DGMS safety standards.
• Maintained HSE and PPE compliance on-site while gaining working familiarity with well control, kick detection basics, and BOP
• (blowout preventer) procedures.
• Numaligarh Refinery - Golaghat, Assam 2023

EDUCATION & CERTIFICATIONS

• DGMS-Mines Vocational Training Certificate - ONGC, Assam (2025)
• Fundamentals of MATLAB - IIT Guwahati (2023)
• AICTE-Sponsored STTP: "Plastics Waste Management through Waste to Wealth Concept" - CIPET, Guwahati (2022)
• Student Volunteer, National Service Scheme - BBEC, Assam (
• SKILLS
• Drilling Rig Operations, Rig Floor Operations, Top Drive System (TDS), Mud Chemicals Handling, Drilling Fluid Systems, Tank Operations,
• Fluid Storage Monitoring, Work over Operations Support, Crude Distillation, Vacuum Distillation, MATLAB, Process Safety Awareness,
• DGMS Certified, HSE Protocols, Well Control & Kick Detection Basics, BOP (Blowout Preventer) Familiarity, PPE Compliance
• EDUCATION
• Bineswar Brahma Engineering College, Kokrajhar, Assam

N. ARUL JOTHI

QA/QC PROFESSIONAL - QUALITY ASSURANCE / CONTROL & HSE MANAGEMENT

JOB POSITION: QA/QC Professional - Quality Assurance / Control & HSE Management | RESIDENT STATUS: Indian National - Available for Deployment

CAREER OBJECTIVE

Experienced QA/QC Professional - Quality Assurance / Control & HSE Management seeking to contribute proven capability in commissioning, QA/QC, inspection, instrumentation to offshore, oil & gas, marine and industrial projects, with strong focus on safe execution, quality compliance, reliable field coordination and timely project delivery.

PROJECT / PROFESSIONAL EXPERIENCE

- Inspection & Testing of Pressure Vessel, Heat exchangers, Tanks, Flare KO Drum, Various Skids, Water Wall
- Panels, Pumps, Blowers, Gear Boxes, Cranes like EOT, Hoists and Jib Cranes etc.
- Inspection of Bulk Items (Pipes, Plates, Flanges, Fittings, Gaskets, etc.)
- Inspecting the Globe, Gate, Check, Ball Valves and Performance of Control Valves of various sizes and Fire safety
- test of Valves.
- Inspection of Onshore/Offshore Structures, Piping, Equipment (Jackets, Topsides, Sleepers & associated
- structures), Pipe Rack Modules etc.
- Welding Inspection and WPS/PQR/ WQT inspection
- Witnessing of Mechanical Testing like Tensile, Impact, Hardness, and Bend Tests.
- Review, Approve the Project Specifications/Standards/Procedures/ITP and that all work is in compliance with
- approved drawings and P&ID.

EDUCATION & CERTIFICATIONS

- Specification (WPS).
- - Review all necessary comment documents from client in order to rectify accordingly in requirement of project needs.
- - Reviewing the Isometric, Piping arrangement, General arrangement and Equipment Drawings.
- - Incoming raw material inspection, consumables and it co-relates with MTC as per EN 10204.
- - Conversant with National/International Codes as API 620(Appendix Q), API 650, ASME Sec I, ASME Sec II, Sec
- VIII, Sec IX, ASME B 31.3, ASME B31.1, and AWS D 1.1, Specification, Standards and procedures.
- - Familiar with a wide range of welding Processes as SMAW, GTAW, SAW & GMAW.
- Monitoring and checking the storage of welding consumable, backing and drying of electrodes as per manufactured recommendations.
- - Stage wise Inspection for surface preparation & Painting of pipes, plates, supports, tanks outside and insides,

MOHAMMAD AMANULLAH

QA/QC INSPECTOR - E&I

JOB POSITION: QA/QC Inspector - E&I | Resident Status: As per source CV / available on request

CAREER OBJECTIVE

Experienced QA/QC Inspector - E&I seeking to contribute proven capability in commissioning, QA/QC, inspection, instrumentation to offshore, oil & gas, marine and industrial projects, with strong focus on safe execution, quality compliance, reliable field coordination and timely project delivery.

PROJECT / PROFESSIONAL EXPERIENCE

- QA/QC Inspector – "E&I" for the company, leadership, enter renal ability & self-motivated individual, able to perform
L PROJECT & COMPANY NAME POSITION CLIENT DURATION
- QA/ QC INSPECTOR
- QA/QC INSPECTOR
- AYTB COMPANY INST. QC
- SAUDI INSPECTOR
- BLNG &ALBA QA/QC INSPECTOR

EDUCATION & CERTIFICATIONS

- Diploma Engineering in Instrumentation "1997".
- Well versed of Quality Control ISO 9000 and 9001(KEEN4) Karla engineers
- 2 weeks Quality Engineering Programmer Planning & implementation for ISO 9001: 2000
- Conversant with
- ➢ Industrial Safety & Management
- ➢ National Electrical Code (NEC), IEC, IEEE, ISA, API, NEMA VE 1& VE 2, BS, ANSI, ASTM
- ➢ National Fire Protection Association (NFPA)/70
- ➢ All inspection report and accurate as per project specification and Saudi Aramco
- Engineering standards, (SAES) like SATP, SAIC, SATR, etc
- Professional Recognition

B. ANBARASAN

E&I QA/QC INSPECTOR - COMPEX CERTIFIED

JOB POSITION: E&I QA/QC Inspector - CompEx Certified | RESIDENT STATUS: Indian National - Available for Deployment

CAREER OBJECTIVE

Experienced E&I QA/QC Inspector - CompEx Certified seeking to contribute proven capability in commissioning, QA/QC, inspection, instrumentation to offshore, oil & gas, marine and industrial projects, with strong focus on safe execution, quality compliance, reliable field coordination and timely project delivery.

PROJECT / PROFESSIONAL EXPERIENCE

- Working experience and learning outcomes from 2013 to 2025 company
- details and position held are in brief.
- For the past 10 years and 10 months I have principally been experienced
- Quality Concepts in fabrication Field (QC Inspection, QA Documentation
- Preparation/Review, Final Documentation Preparation/Review and QA/QC
- Coordination) in various platforms such as Electrical & Instrumentations.
- Company : Rotating Offshore Solutions Pte Ltd.
- Period : January 2013 to August 2021
- Company : Hong Yuen Electrical Engineering Co
- Pte Ltd Pte Ltd
- Period : November 2022 to December 2023
- Company : GE Power Conversion Asia Pte Ltd

EDUCATION & CERTIFICATIONS

- Diploma in Electrical & Electronics Engineering at Vandaiyar Polytechnic
- College at Thanjavur.
- Post Graduate Diploma in Computer Application Course completed.
- CompEx CERTIFICATE DETAILS:
- Certificate No : 137948
- Date of Expiry : 11 April 2030
- BOSIET CERTIFICATE DETAILS:
- Certificate No : L
- Date of Expiry : 19 SEP 2027
- PROFESSIONAL SKILLS:

ZARMANIS ALFIAN

ELECTRICAL & INSTRUMENTATION INSPECTOR / IECEX-ATEX INSPECTOR

JOB POSITION: Electrical & Instrumentation Inspector / IECEx-ATEX Inspector | RESIDENT STATUS: Indonesian National - Available for Deployment

CAREER OBJECTIVE

Experienced Electrical & Instrumentation Inspector / IECEx-ATEX Inspector seeking to contribute proven capability in commissioning, inspection, instrumentation, electrical to offshore, oil & gas, marine and industrial projects, with strong focus on safe exe cution, quality compliance, reliable field coordination and timely project delivery.

PROJECT / PROFESSIONAL EXPERIENCE

- PROFESSIONAL EXPERIENCE
- PT McDermott Indonesia
- Quality Inspector
- April 2026 – Present
- Projects:
- North Field Expansion (NFXP) Project
- Key Responsibilities
- Conducted electrical and instrumentation inspections in accordance with project specifications, ITPs, and international standards.
- Performed hazardous area inspections for IECEx-certified equipment in Zone 0, Zone 1, and Zone 2 environments.
- Witnessed calibration, installation, and testing of instrumentation systems.
- Conducted cable installation inspections, grounding verification, and insulation resistance testing.

EDUCATION & CERTIFICATIONS

- FORMAL EDUCATION RECORDS
- Education:
- Diploma in Mechanical Engineering
- Batam State Polytechnic (Politeknik Negeri Batam), Indonesia
- Vocational High School in Mechanical Engineering
- SMK Negeri 1 Batam, Indonesia
- PROFESSIONAL CERTIFICATIONS
- CompEx (Ex01-Ex04) Certified Personnel for Explosive Atmospheres (Valid until April 2027)
- Electrical & Instrument Inspector Certification
- BARTEC Cable Gland Installation Competency Training

PATEL KRUNAL B

ELECTRICAL & INSTRUMENT SPECIALIST

JOB POSITION: Electrical & Instrument Specialist | Resident Status: As per source CV / available on request

CAREER OBJECTIVE

Experienced Electrical & Instrument Specialist seeking to contribute proven capability in commissioning, QA/QC, inspection, instrumentation to offshore, oil & gas, marine and industrial projects, with strong focus on safe execution, quality compliance, reliable field coordination and timely project delivery.

PROJECT / PROFESSIONAL EXPERIENCE

- TRAININGS & CAREER ACHIEVEMENTS
- OPITO T- BOSIET Approved
- Offshore safety & Survival Course (HUET)
- Fire Extinguishers
- Personnel Basket Swing Rope
- Health & Safety
- Health Risk Assessment
- Permit to Work
- EBS (Emergency Breathing System)

EDUCATION & CERTIFICATIONS

- Passed S.S.C. (Secondary School Certificate) Exam.
- Diploma in Instrumentation & Control Engineering

K. BALASUBRAMANIAN

ELECTRICAL & INSTRUMENTATION SUPERVISOR

JOB POSITION: Electrical & Instrumentation Supervisor | RESIDENT STATUS: Indian National - Available for Deployment

CAREER OBJECTIVE

Experienced Electrical & Instrumentation Supervisor seeking to contribute proven capability in commissioning, QA/QC, inspection, instrumentation to offshore, oil & gas, marine and industrial projects, with strong focus on safe execution, quality compliance, reliable field coordination and timely project delivery.

PROJECT / PROFESSIONAL EXPERIENCE

- Equate Petrochemical Company, Kuwait Industrial Area -Kuwait
- Electrical & Instrumentation Supervisor 11/2025 – 2/2026.
- Electrical & Instrumentation Supervisor Position working at Equate Petrochemical an EBSM Unit,
- ARO Unit, Under Bader Al Mulla & Brothers Engineering Company S.P.C, Turnaround shutdown
- balasubramanian-7610b3241 Project.
- Execution: Directing maintenance, repairs, troubleshooting, and installation of
- 4/31A Mela Street Kallakkudi field instruments (Transmitter, MOVs, etc.), control valves, transmitters, and
- North-PO, Lalgudi TK, Trichy-DT, DCS/PLC systems (Honeywell, etc.).
- Tamil Nadu State, India.
- Testing & Commissioning: Performing loop checks, cause-and-effect matrix
- SUMMARY: checks, I/O checks, functional checks, and supporting pre-commissioning /
- commissioning.

EDUCATION & CERTIFICATIONS

- CompEx - Hazardous Area Electrical
- Equipment's Installation ABB PTE LTD BOMESC Yard- Tianjin, China-PRC
- Hazardous Area Electrical Equipment's Comp Ex -Lead QA/QC Supervisor 09/2014-02/2015
- Installation IEC Standards 60079 - Electrical & Instrumentation Lead QA/QC Supervisor position on worked Bohai Oil Marine
- Assets Training & Technical Services Pte Engineering & Supply Co. Yard at MODEC International / Petrobras Brazil (Offshore-MV27-FPSO
- Ltd, Singapore (Approved by JT Limited, Project)
- United Kingdom). Attend the weekly and Monthly construction co-ordination meetings with clients
- Submitting daily, Weekly report to management based on construction activities

SAQIB AYAZ

E&I QA/QC INSPECTOR

JOB POSITION: E&I QA/QC Inspector | RESIDENT STATUS: Pakistan Resident - Available for Deployment

CAREER OBJECTIVE

Experienced E&I QA/QC Inspector seeking to contribute proven capability in commissioning, QA/QC, inspection, instrumentation to offshore, oil & gas, marine and industrial projects, with strong focus on safe execution, quality compliance, reliable field coordination and timely project delivery.

PROJECT / PROFESSIONAL EXPERIENCE

- Quality Control Electrical & Instrument Inspector. ORYX GTL (Gas to Liquid Ras Laffan Qatar)
- March 2016 – March 2018
- Day to day planning and organizing Inspection and testing activities at site.
- Experience in Material Receiving Inspection and verification.
- Verify compliance of installations (Ex d, Ex e, Ex n, Ex i, Ex p) and raise punch items where required.
- Knowledge in Electrical and Instrument International and Aramco Standards Codes.
- Review and sign-off ITRs for Electrical, Instrument, Monitoring all installation and
- inspection of electrical and instrumentation work with respective of Quality ITP and checklist.
- Review and verify QA/QC documentation such as inspection reports, test records, and material certificates.

EDUCATION & CERTIFICATIONS

- A highly motivated and dynamic individual, creative and full of ideas with a strong intention to drive improvements. Able to work independently or as part of a team, with excellent communication skills across all levels and strong multitasking ability. With a formal education

CH.V.N. RANJITH

ELECTRICAL & INSTRUMENTATION PLANNER

JOB POSITION: Electrical & Instrumentation Planner | Resident Status: As per source CV / available on request

CAREER OBJECTIVE

Experienced Electrical & Instrumentation Planner seeking to contribute proven capability in commissioning, instrumentation, electrical, DCS/control systems to offshore, oil & gas, marine and industrial projects, with strong focus on safe execution, quality compliance, reliable field coordination and timely project delivery.

PROJECT / PROFESSIONAL EXPERIENCE

- Experience Summary:
- Project Planning & Management
- Developed and managed detailed project plans for electrical and
- instrumentation works, including schedules and resource allocation.
- Coordinated with engineering, procurement, and construction teams to
- align project timelines and deliverables.
- Prepared progress reports, cost forecasts, and project documentation
- (plans, reports, updates) for management review and Monitored project
- progress, proactively adjusting schedules to mitigate delays.
- Ensured project completion within time, and quality parameters through
- effective planning and resource utilization.
- Design & Technical Coordination

EDUCATION & CERTIFICATIONS

- Bachelor of Electrical and Electronics Engineering, Pondicherry University
- in the year of 2009 with the aggregate GPA of 7.25

MOHD AZLAN MOHD YUSOFF

SENIOR E&I / EX INSPECTOR - IECEX CERTIFIED

JOB POSITION: Senior E&I / Ex Inspector - IECEx Certified | RESIDENT STATUS: Malaysia Resident - Available for Deployment

CAREER OBJECTIVE

Experienced Senior E&I / Ex Inspector - IECEx Certified seeking to contribute proven capability in commissioning, QA/QC, inspection, instrumentation to offshore, oil & gas, marine and industrial projects, with strong focus on safe execution, quality compliance, reliable field coordination and timely project delivery.

PROJECT / PROFESSIONAL EXPERIENCE

- Senior E&I / Ex Inspector | IECEx Certified | Oil & Gas QA/QC
- DNV (O.B.O PTTEP) | May 2026
- Role: E&I / Ex Inspector
- DFINITI TECHNOLOGIES (O.B.O SHELL Brazil Petroleo LTDA – Gato do Mato FPSO) | May 2026
- Role: Ex Inspector
- LRQA (Petronas Chemical MTBE - BASIL Project: Maleic Anhydride Refiber & Briquetting Plant) | April 2026
- Verified insulation resistance (IR) testing, shielding efficacy, and batch sampling to enforce stringent project safety metrics.
- BUREAU VERITAS (O.B.O Valeura Energy – Wasana Redevelopment Project, Thailand) | March 2026 – April 2026
- Role: E&I Inspector
- TECHNICAS ETHICAS / HYUNDAI HEAVY INDUSTRIES (North Oil Company Diesel Generator Project) | February 2026
- Role: IECEx Inspector
- ROSMARI MARJORAM GAS DEVELOPMENT (SHELL) | April 2025 – September 2025

EDUCATION & CERTIFICATIONS

- IECEx Certified Ex Inspector (Ex 001, 003, 004, 006, 007, 008) – CTE Australia (Cert No: IECEx CP CTE25.0056)
- Chargeman A1 – UNITEN / Sultan Ahmad Shah Training Institute (Reg: PJ-T-2-B)
- Exd / Exe Glanding for Armoured Cable – Hawke International
- TNB Chargeman A1 Training – Kuantan, Pahang
- Sijil Pelajaran Malaysia (SPM) – Temerloh, Pahang
- Address: No. 35, Jalan SKD2, Taman Sungai Karang Pantai, 26100 Kuantan, Pahang, Malaysia

KALAI

E&I PROFESSIONAL

JOB POSITION: E&I Professional | Resident Status: As per source CV / available on request

CAREER OBJECTIVE

Experienced E&I Professional seeking to contribute proven capability in commissioning, inspection, instrumentation, electrical to offshore, oil & gas, marine and industrial projects, with strong focus on safe execution, quality compliance, reliable field coordination and timely project delivery.

PROJECT / PROFESSIONAL EXPERIENCE

- Educational Background: ITI electrical
- Languages Known : English and Tamil (Read, Write and Speak)
- Profile:
- Present Employer PT.Rotating Offshore Solutions Pte LTD Lead Construction E&I Engineer Batam 2025 to Until
- obtain a challenging & growth oriented career in a highly motivated environment involving job growth,opportunity to learn and upgrade myself & organization.
- Installation and testing of Instruments like transmitters, control valves and Specialized Instruments like Fire and gas analyzers.
- Supervision for field Instrumentation erection activities like cable Tray, cable laying, Fabrication, Erection &Testing of impulse Piping, control Valve Tubing.
- Review the various PO/PR to define the scope of work/scope of supply of vendors
- Discussing the daily job plans with the contractor personnel and coordinating with them to execute the same.
- Reporting daily progress to the superiors and discuss the problems and plans to execute the job in a Scheduled period.
- Preparation and modification of Field location drawings as per site conditions.And making as-built drawings.
- Review with Customer for inspection of punch list and clearance for FAT

EDUCATION & CERTIFICATIONS

MOHAMMAD AMIR MALLICK

E&I LEAD TECHNICIAN / COMMISSIONING & MAINTENANCE

JOB POSITION: E&I Lead Technician / Commissioning & Maintenance | RESIDENT STATUS: Indian National - Available for Deployment

CAREER OBJECTIVE

Experienced E&I Lead Technician / Commissioning & Maintenance seeking to contribute proven capability in commissioning to offshore, oil & gas, marine and industrial projects, with strong focus on safe execution, quality compliance, reliable field coordination and timely project delivery.

PROJECT / PROFESSIONAL EXPERIENCE

- E&I Lead Technician / Commissioning & Maintenance
- Electrical & Electronics Engineering professional with offshore/onshore maintenance and commissioning exposure.

EDUCATION & CERTIFICATIONS

- S.S.C - B.S.E.B Patna (2004)
- Diploma in Electrical & Electronics Engineering - Bihar B.S.E.B Patna (2007)
- OGUK + H2S; COVID-19 & Yellow Fever vaccinated

WAHYU A. HIDAYAT

ELECTRICAL JUNIOR ENGINEER / ELECTRICAL TECHNICIAN / MAINTENANCE TECHNICIAN

JOB POSITION: Electrical Junior Engineer / Electrical Technician / Maintenance Technician | Resident Status: As per source CV / available on request

CAREER OBJECTIVE

Experienced Electrical Junior Engineer / Electrical Technician / Maintenance Technician seeking to contribute proven capability in commissioning, QA/QC, inspection, instrumentation to offshore, oil & gas, marine and industrial projects, with strong focus on safe execution, quality compliance, reliable field coordination and timely project delivery.

PROJECT / PROFESSIONAL EXPERIENCE

- 18 July 2017 up 24 July 2018
- TIMAS SUPLINDO
- Electrical
- Project CS#-IKBB Pulp And Paper mills project,pangkalan kerinci, Indonesia
- Able reading drawing routing cable, layout panel, wirring (Intrument, electrical, telcom), layout sapot, layout
- Equipment, HVAC, layout, lighting, layout MCT electrical, Intrument and telcom
- Installastion panel electrical, scada, DCS , switchgear, panel MCC, junction box(fire alarm, lamp emergency), panel lighting,
- Installation and put up, able reading drawing layout sapot,detail sapot sapot tray,(carbon, stainless steel,)
- location of coordinate points (Datum), fabrication sapot, repair sapot.
- Installation and put up, able reading drawing layout tray, detail tray, tray size mm (900, 600, 300, 150, 100)
- tray type (ladder, perforated, stainless steel),(offside, inside, reducer tray, jointing, crossing tray, tee way,

EDUCATION & CERTIFICATIONS

- SMA 1 Waringin Kurung (IPS) (September 2017)
- Univercity of Serang Raya D3 Company manager (September 2020)
- Certification/Licenses:
- August 2019 On the Job Training at Training Center PT. Multi Fabrindo Gemilang.
- June 2018 On the Job Training at Training Center PT. Krakatau Daya Listrik.
- Training Practical Installation Method for CMP Cable Glands
- Training The Occupational Safety and Health (OSH) Training of First Aid At Workspace
- Training Basic Process Electrical From PT. MCDERMOTT INDONESIA
- Training Cable Glanding And Termination From PT. MCDERMOTT INDONESIA
- Training Premature Failure Of Cable Termination From PT. MCDERMOTT INDONESIA

KARUTHAPILLAI SASIKUMAR

MECHANICAL COMMISSIONING SUPERVISOR

JOB POSITION: Mechanical Commissioning Supervisor | RESIDENT STATUS: Singapore Permanent Resident

CAREER OBJECTIVE

Experienced Mechanical Commissioning Supervisor seeking to contribute proven capability in commissioning, inspection, instrumentation, electrical to offshore, oil & gas, marine and industrial projects, with strong focus on safe execution, quality compliance, reliable field coordination and timely project delivery.

PROJECT / PROFESSIONAL EXPERIENCE

- NITEC Singapore 2005
- Secondary Science Parangipettai. Chidambaram. 1993
- 6 Altera Infrastructure Norway Mechanical Supervisor
- 5 SBM Offshore Singapore
- Lead Technician
- PaxOcean Singapore Pte ltd
- Supervisor
- Harbour Tamilnadu India Technician
- Project: LIZA UNITY FPSO / PROSPERITY FPSO /ONE GUYANA FPSO/ PETROJARL ROSEBANK
- To Discuss with trade supervisors for analyze material cost, pricing and variances,
- Issue & Update project plan promptly to Owners,
- Organize project mobilization and handle subsequent production co-ordinations

EDUCATION & CERTIFICATIONS

- Qualification Branch Institution Year of Passing
- Institute of Technical Education,
- Mechanical
- NITEC Singapore 2005
- Technology
- Portono Higher Secondary School
- Secondary Science Parangipettai. Chidambaram. 1993
- Tamilnadu India

AYUSH PATEL

INSTRUMENTATION & CONTROL COMMISSIONING SUPERVISOR

JOB POSITION: Instrumentation & Control Commissioning Supervisor | Resident Status: As per source CV / available on request

CAREER OBJECTIVE

Experienced Instrumentation & Control Commissioning Supervisor seeking to contribute proven capability in commissioning, QA/QC, inspection, instrumentation to offshore, oil & gas, marine and industrial projects, with strong focus on safe execution, quality compliance, reliable field coordination and timely project delivery.

PROJECT / PROFESSIONAL EXPERIENCE

- ENI, Golar LNG, Altera Infrastructure, Reliance BP JV, and ONGC.
- PROFESSIONAL EXPERIENCE
- Client Rep – Commissioning Instrument Engineer | March 2025 – Present
- ENI – RINA | DP4 Platform, BOURI GUP, Libya
- Represent the Client during offshore Brownfield, shutdown, hook-up, commissioning and start-up activities, ensuring safe and timely execution of Instrument discipline work.
- Supervise contractor activities including instrument installation verification, SAT, loop checks, functional testing and commissioning
- ABB Symphony Plus DCS and Rockwell ESD systems.
- Represented the Client (PMC) by leading system and subsystem walk-downs for process skids and packages, identifying punch items, verifying mechanical completion, and supporting system handover.
- Witness and validate Cause & Effect testing, ESD logic verification, alarm management and integrated functional testing to ensure
- operational readiness.

EDUCATION & CERTIFICATIONS

- OPITO Approved BOSIET | STCW Certified | Seaman's Book (Indian CDC) | PLC Programming – Honeywell C300
- Commissioning & Start-Up Training (15 days) | PSV, PRV & Control Valve Training (15 days) | Work at Height
- O.G.U.K Medical | Fiber Optic Splicing, Termination & Testing | MS Office (Word, Excel, PowerPoint)
- Advanced English L1 Course | Pearson Test of English (7.45/10) | Confined Space Entry Certified | H2S Awareness
- KEY ACHIEVEMENTS
- Brownfield Shutdown Execution: Successfully supervised and verified pre-commissioning and commissioning activities during
- complex offshore brownfield shutdowns, supporting safe and timely plant start-up.
- System Completion & Handover: Led system walkdowns, punch list verification, Mechanical Completion (MC), Ready for Commissioning (RFC), and Ready for Start-Up (RFSU) activities, ensuring smooth handover to Operations.
- Control System Commissioning: Witnessed and validated SAT, loop checks, I/O verification, functional testing, and Cause

PRATHAMKUMAR INDRAVADANBHAI PATEL

INSTRUMENTATION COMMISSIONING & MAINTENANCE SPECIALIST

JOB POSITION: Instrumentation Commissioning & Maintenance Specialist | RESIDENT STATUS: Indian National - Available for Deployment

CAREER OBJECTIVE

Experienced Instrumentation Commissioning & Maintenance Specialist seeking to contribute proven capability in commissioning, QA/QC, inspection, instrumentation to offshore, oil & gas, marine and industrial projects, with strong focus on safe execution, quality compliance, reliable field coordination and timely project delivery.

PROJECT / PROFESSIONAL EXPERIENCE

- Instrument Commissioning Specialist Feb 2024 – Present
- NPCC, Abu Dhabi | Project: ARAMCO ZULUF Offshore | Contract: SOS
- Lead pre-commissioning, commissioning, and start-up for DCS, PLC, and SIS on ARAMCO offshore project.
- Conduct FAT and SAT for DCS, PLC, and Fire & Gas systems per engineering standards and project timelines.
- Execute loop checks, functional testing, calibration, and verification of transmitters, control valves, and safety systems.
- Configure and integrate Honeywell Experion PKS, ABB 800xA, and Emerson Delta-V for operational readiness.
- Perform logic testing and interlock verification for ESD and Fire & Gas Systems.
- Commission Rotork/Auma MOVs, Bentley Nevada 3500 vibration systems, gas analyzers, and Fiscal Metering Skids.
- Maintain zero Lost Time Incidents (LTI) across all commissioning activities through strict PTW/LOTO compliance.
- Spearhead commissioning of Wellhead Control Panels (WHCPs), RTUs (Emerson Control-Wave), and hydraulic/pneumatic
- actuator systems; lead multi-vendor loop checking across 50+ field loops and 8+ WHCPs.
- Execute Cause & Effect testing and interlock validation for ESD, F&G, and HIPPS logic

EDUCATION & CERTIFICATIONS

- Diploma in Instrumentation & Control Engineering Completed
- Government Polytechnic Gandhinagar, Gujarat, India
- CERTIFICATIONS & TRAINING
- BOSIET with CA-EBS – OPITO Approved (Offshore Safety Certification)
- H2S Awareness & Emergency Response Training
- Firefighting, Working at Heights & Confined Space Entry
- International Standards Knowledge: API, ISA, IEC, EN, BS, ATEX, IECEx, OSHA, HAZOP, SIL

SIVANAGU YARRAMSETTI

INSTRUMENT ENGINEER / COMMISSIONING FIELD ENGINEER

JOB POSITION: Instrument Engineer / Commissioning Field Engineer | Resident Status: As per source CV / available on request

CAREER OBJECTIVE

Experienced Instrument Engineer / Commissioning Field Engineer seeking to contribute proven capability in commissioning, inspection, instrumentation, electrical to offshore, oil & gas, marine and industrial projects, with strong focus on safe execution, quality compliance, reliable field coordination and timely project delivery.

PROJECT / PROFESSIONAL EXPERIENCE

- Instrument Commissioning Supervisor
- Keppel Shipyard | A Star | Singapore | Dec 2022 – Present
- GOLAR GIMI FLNG (Dec 2022 – Dec 2023)
- BW BAROSSA FPSO (Jan 2024 – May 2024)
- SBM YELLOW TAIL (JUN 2024 – FEB 2025)
- PETROBRAS P78 (MARCH 2025 – JUN 2025)
- EMPIRE WIND 1(JULY 2025 - NOV 2025)
- PETROBRAS P80 (DEC 2025 – PRESENT)
- Key Responsibilities:
- To handle Commissioning, pre-commissioning, Mechanical Completion activities assigned
- Review and analyze IO Lists, P&ID Drawings, D&I Drawings, Functional Design Specifications, and HMI Screens.
- Conduct commissioning, pre-commissioning, and mechanical completion activities.
- Reviews the project technical documentation and the contractual requirements.

EDUCATION & CERTIFICATIONS

- Bachelor of Engineering Technology
- Mechanical |Pragati Engineering College | India | 2016
- TECHNICAL SKILLS
- Instrumentation & Control Systems
- Fire & Gas Systems, ESD, PSD
- Commissioning & Pre-Commissioning
- Loop Checking & Calibration
- Installation & Troubleshooting
- Technical Drawings & P&ID Interpretation

RAJAN SINGH

MECHANICAL CONSTRUCTION ENGINEER

JOB POSITION: Mechanical Construction Engineer | RESIDENT STATUS: Indian National - Available for Deployment

CAREER OBJECTIVE

Experienced Mechanical Construction Engineer seeking to contribute proven capability in commissioning, QA/QC, inspection, mechanical to offshore, oil & gas, marine and industrial projects, with strong focus on safe execution, quality compliance, reliable field coordination and timely project delivery.

PROJECT / PROFESSIONAL EXPERIENCE

- Birlon Engineering Mechanical Contracting L.L.C, Abu Dhabi, Sep 2025 – Present.
- Mechanical Engineer
- Project: AL Dhafra "OCGT" Power Plant, Musaffah | Owner: TAQA | EPC: Samsung C&T, Trojan.
- Key Contributions:
- Supervised structural steel erection, piping installation, and mechanical equipment installation in accordance with IFC
- drawings and project specifications.
- Reviewed IFC drawings, GA drawings, isometric drawings, and structural shop drawings to ensure constructability
- before execution.
- Coordinated piping spool erection, fit-up, flange alignment, bolt tightening, and final line inspections.
- Monitored installation of pumps, tanks, heat exchangers, pipe supports, and Balance of Plant (BOP) systems.
- Coordinated heavy lifting activities with crane operators, rigging supervisors, and HSE personnel while ensuring safe lifting practices.

EDUCATION & CERTIFICATIONS

- M.Tech (Mechanical Engineering) from RGPV University, Bhopal (M.P). Secured 8.62/10 (CGPA). 2023
- B.E (Mechanical Engineering) from RGPV University, Bhopal (M.P). Secured 7.29/10 (CGPA). 2020
- Core Skills:
- Mechanical Construction: Mechanical equipment erection, installation, alignment, commissioning support, maintenance coordination.
- Piping Engineering: Piping fabrication, spool erection, fit-up, line checking, flange management, bolt torquing, hydrostatic testing, pneumatic testing, flushing, air blowing.
- Structural Engineering: Structural steel erection, pipe rack installation, equipment support structures, grouting, anchor bolt alignment, steel connections.
- Standards & Codes: ASME B31.1, ASME B31.3, ASTM, API, ISO Standards, project specifications, QA/QC requirements.

SUNDAR RAJ JENEF

QC ENGINEER

JOB POSITION: QC Engineer | RESIDENT STATUS: Indian National - Available for Deployment

CAREER OBJECTIVE

Experienced QC Engineer seeking to contribute proven capability in commissioning, QA/QC, inspection, mechanical to offshore, oil & gas, marine and industrial projects, with strong focus on safe execution, quality compliance, reliable field coordination and timely project delivery.

PROJECT / PROFESSIONAL EXPERIENCE

- Company : ZF COMMERICAL VEHICLE CONTROL SYSTEM INDIA LTD
- Designation : QA/QC Engineer.
- Duration : Feb 2021 to May 2023 (2 Years)
- Note: During my third year of bachelor's degree in engineering, I was hired by this organization
- ZF COMMERICAL VEHICLE CONTROL SYSTEM INDIA LTD
- Location : CHENNAI ,AMBATTUR (INDIA)
- Major Client : TATA, EICHER, TRAILER, ASHOK LEYLAND, MAHENDRA.
- Scope of Work :
- Quality Assurance (QA)
- Develop and Implement Quality Management Systems
- Create and maintain a robust quality management system (QMS) according

EDUCATION & CERTIFICATIONS

- Develop training programs and materials for staff on quality standards, procedures, and best practices.
- Continuous Improvement:
- Initiate and lead quality improvement projects using methodologies such as Six Sigma or Lean.
- Quality Control (QC)
- Incoming Material Inspection:
- Ensure that raw materials and components meet specified standards before entering the production line.
- In-Process Inspection

S. SATHEESHKUMAR

MECHANICAL COMMISSIONING SUPERVISOR

JOB POSITION: Mechanical Commissioning Supervisor | RESIDENT STATUS: Indian National - Available for Deployment

CAREER OBJECTIVE

Experienced Mechanical Commissioning Supervisor seeking to contribute proven capability in commissioning, inspection, mechani cal to offshore, oil & gas, marine and industrial projects, with strong focus on safe execution, quality compliance, reliable field coordination and timely project delivery.

PROJECT / PROFESSIONAL EXPERIENCE

- Experience
- UNITED ENGINEERING AUTOMATION(S) PTE,LTD. – SINGAPORE - 07/2025
- Mechanical Commissioning Supervisor
- Performing and involved in commissioning and start-up activities for Baker Hughes / GE LM6000 PC / LM2500+G4 aero-derivative gas turbines, including pumps and auxiliaries installation, maintenance, and Yard -Singapore .
- Roles & Responseblity:
- Ensure full compliance with all safety procedures and regulations as defined in the Safety and Health Manual, and maintain high standards of housekeeping at all times on site.
- Performed and participated in all pre-commissioning and commissioning activities in accordance with the BH
- Commissioning Manual and P&ID for GTG / GTC Package Auxiliary Equipment.

EDUCATION & CERTIFICATIONS

- Venkatesvara Polytechnic College. Pudukkottai - India
- Diploma in mechanical engineering
- 1st Grade
- Course & Certificate
- BOSIET with EBS. (OPITO Standard)expiry date
- H2S (OPITO standard) expiry date
- Bahamas Seaman's Record Book (CDC) – Issued by the Bahamas Maritime Authority.
- Book No : BMA-SRB-39476-26 | Valid: 23 Jul 2026 – 23 Jul 2036.
- Supervise Workplace Safety & Health in Process Plant / Oil,Petrochemical Industry Safety Course.
- (SWSHPP / OPISC).Singapore Workforce Skills Qualifications.

VIJAYKUMAR

INSTRUMENT SUPERVISOR

JOB POSITION: Instrument Supervisor | Resident Status: As per source CV / available on request

CAREER OBJECTIVE

Experienced Instrument Supervisor seeking to contribute proven capability in commissioning, inspection, instrumentation, electrical to offshore, oil & gas, marine and industrial projects, with strong focus on safe execution, quality compliance, reliable field coordination and timely project delivery.

PROJECT / PROFESSIONAL EXPERIENCE

• Instrument Supervisor with Over 16+ Years of Comprehensive Experience &
Consistent Track Record of Successfully Leading Large Scale Projects
• EPC/PMC Internationally, My Career Has Been Focused on The Complete Project
Instrument Commissioning Supervisor .
• ADNOC Borouge-4 XLPE-2 Polyethylene Project Nov' 2025 To Feb' 2026
• Saudi Aramco JOP Platform (Jafurah Development Project) Jan' 2025 To June' 2025
• Instrument Supervisor - Petronas Bagsf-2 Project Nov' 2023 To Dec' 2024
• North Caspian Operating Company NWTF Project.

EDUCATION & CERTIFICATIONS

• Annual testing and documentation of test results for process and SIS interlocks; Provide technical support for all plant control.
• systems, data acquisition system and maintenance team objectives.
• Operation and Maintenance:
• Observe status of equipment during routine inspections activities for abnormalities and report any defects to relevant Line.
• Assist/Conduct major / minor repairs on critical equipment
shutdown and maintain data log of jobs.
• Propose improvement ideas to improve HSE, Maintenance program and Reliability.

SANJIV PATEL

INSTRUMENT TECHNICIAN

JOB POSITION: Instrument Technician | RESIDENT STATUS: Indian National - Available for Deployment

CAREER OBJECTIVE

Experienced Instrument Technician seeking to contribute proven capability in commissioning, instrumentation, DCS/control systems to offshore, oil & gas, marine and industrial projects, with strong focus on safe execution, quality compliance, reliable field coordination and timely project delivery.

PROJECT / PROFESSIONAL EXPERIENCE

- English, Hindi, Gujarati
- Overseas & Indian Experience
- PERSONAL ATTRIBUTES Tecnimont Pvt Ltd., Abudhabi, UAE
- Instrument Technician
- Very good at striking positive
- Duration: 15/10/2024 To 17/04/2026
- relationships with clients, vendors and team members
- Fire and Gas (F&G) instrumentation professionals are responsible for installing, calibrating, maintaining, and troubleshooting safety systems like flame detectors, smoke detectors, and gas sensors.
- Relationship building with Toxic and combustible gas detectors (e.g., $H2S$, Hydrocarbon).

EDUCATION & CERTIFICATIONS

- proven abilities in reducing downtime and enhancing operational efficiencies; Devisin
- Diploma in Instrumentation & strategies to streamline operations & implement best quality practices.
- Control Engineering
- Academy for Global Study, Steep knowledge of the Following Control Systems:
- Ahmedabad, India
- July 2013 DCS - Honeywell-TDC 2000/TDC 3000/GUS.
- Emerson (Delta V Version 9.3) & (Delta V Versio 10.3).
- (IPS & FGS – Delta V Emerson), Yokogawa (Centum Vp), IPS and FGS: - HIMA Yokogawa
- Senior Secondary Certificate Foxboro I/A Series.
- G.S.E.B Board, Gandhinagar

SHIVAM SINGH

BOLT TORQUING TECHNICIAN / LEAD TECHNICIAN

JOB POSITION: Bolt Torquing Technician / Lead Technician | RESIDENT STATUS: Indian National - Available for Deployment

CAREER OBJECTIVE

Experienced Bolt Torquing Technician / Lead Technician seeking to contribute proven capability in project execution and technical operations to offshore, oil & gas, marine and industrial projects, with strong focus on safe execution, quality compliance, reliable field coordination and timely project delivery.

PROJECT / PROFESSIONAL EXPERIENCE

- Lead Technician / Mechanical Technician - Supreme Supply & Services | Offshore - McDermott NEXP Project
- Mechanical Assistant / Bolt Torquing Technician - First Star Oilfield Equipment & Services LLC | Abu Dhabi
- Bolting Technician - Emdad Services LLC | Borouge & Sour Gas Plants | Abu Dhabi
- Industrial Experience - Reliance Jamnagar, HPCL Visakh Refinery, Barauni Refinery

EDUCATION & CERTIFICATIONS

- HYTORC Competent - Hand Torque, Hydraulic Torque, Bolt Tensioning
- OPITO T-BOSIET approved - valid to Feb 2030
- OPITO Basic H2S; ADNOC H2S & SCBA Level 2
- ADNOC Confined Space Awareness; Work at Height Certified
- QatarEnergy LNG Offshore Medical Fit

SONU VB

CSWIP 3.1 WELDING INSPECTOR / NDT RT TECHNICIAN / QC INSPECTOR

JOB POSITION: CSWIP 3.1 Welding Inspector / NDT RT Technician / QC Inspector | RESIDENT STATUS: Indian National - Available for Deployment

CAREER OBJECTIVE

Experienced CSWIP 3.1 Welding Inspector / NDT RT Technician / QC Inspector seeking to contribute proven capability in QA/QC, inspection, mechanical, welding to offshore, oil & gas, marine and industrial projects, with strong focus on safe execution, quality compliance, reliable field coordination and timely project delivery.

PROJECT / PROFESSIONAL EXPERIENCE

- 2025 — Present Welding Inspector, EIWAA Oil & Gas UAE & Saudi Arabia
- Perform welding inspection activities to verify compliance with project specifications, welding standards, and quality procedures.
- Conduct inspection of welded components and fabrication processes to ensure adherence to quality control requirements.
- Coordinate with engineering and technical teams to support quality assurance activities across project operations.
- Monitor fabrication and welding activities to maintain alignment with industrial quality standards.
- Review inspection documentation and technical reports to ensure accuracy and completeness.
- Assist in identifying welding defects and quality deviations during inspection processes.
- Support project quality teams in maintaining inspection standards across oil & gas project environments.

EDUCATION & CERTIFICATIONS

- SONU VB, CSWIP 3.1 Welding Inspector | NDT RT Technician | QC Inspector | PMI Inspection
- C E RT I F I C AT I O N S & CSWIP 3.1 Welding Inspector
- 2021 Diploma in Mechanical Engineering, ARIES Polytechnic.
